Professional Summary

Collaborative Product Designer with around 2 years of experience designing consumer products across mobile, web, and internal platforms and 4 years including Architectural design. Experienced in taking features from research and problem framing through wireframes, prototypes, handoff, and design QA. I’m comfortable collaborating with product managers, engineers, and stakeholders to ship thoughtful user experiences. Passionate about continuous learning, user-centered design, and creating simple experiences that positively impact millions of users.

Skills & Tools

- AI Stack : Claude design, Figma make & ChatGPT (prototyping, concept exploration & copy)
- UX Design: User Research, Personas, User Flows, Wireframing, Prototyping, Interaction Design
- UI Design: Visual Design, Design Systems, Layout, Microcopy
- Tools: Figma, FigJam, Jira, Framer, Autocad, Sketchup, Lumion
- Methods: A/B Testing, Usability Testing, Information Architecture, JTBDs
- Collaboration: Cross-functional Alignment, PM Partnership, Dev Handoffs, Design QA

Professional Experience

Product Designer 1 - WorkIndia (Bengaluru, April 2026 - Oct 2026)

- Incorporated AI in the workflow and reduced concept exploration to execution time. Made interactive prototypes on claude design / Figma make for exploration and validation.
- Lead candidate platform monetization initiatives, Sales CRM and improved the candidate app experience.
- Partnered closely with PMs, engineers, and stakeholders to define problems and shipped user-centered solutions.

Candidate Experience Initiatives

- New onboarding experiment (ongoing) - Registration (+7.2%), T7 Retention (+1.5%), T0 (+1.5%)

Associate Product Designer - WorkIndia recruitment platform (Bengaluru, Jan 2025 - April 2026)

Key Achievements

- Redesigned sales CRM to reduce Cost/Call by 20% (₹12.4L/month) while increasing agent productivity (+30–40 calls/day)
- Delivered ₹3.5L+ revenue uplift in week 1 by designing renewal nudges that increased annual upgrades by +55%.
- Increased notification-driven conversions by ₹3L through UX improvements.
- Introduced lead scoring UX in Sales CRM that made agents 2.3× more productive (₹87k vs ₹38k revenue/agent).

Candidate Experience Initiatives

- Increased onboarding experience-fill rate for low-education candidates by +26.4% with near-zero drop-off in funnel.
- Redesigned My Activity section improving task completions (+9.2%), engagement (+0.7%), and T7 retention (+0.6%).
- Built PAN-India WFH job experience, increasing search leads (+12.8%), Calls+WA (+2.8%), and retention (+0.4%).
- Revamped Final Stage of apply/call flow, increasing Calls/WhatsApp by +3% per GT and +6.3% per DAU.
- Improved visibility of Refer & Earn Banner, by scaling App downloads via banner (4 → 113)

Employer Experience Initiatives

- Redesigned Candidate card - Significantly improved the UX with high employer approval rate while task completion marginally increased by (+0.8%), increasing employer engagement (+0.7%), and weekly retention (+0.6%).

Other Responsibilities

- Conducted user research, usability tests, field studies with employers & candidates.
- Led the full design lifecycle: research → problem framing → ideation → wireframes → prototypes → UAT → handover → QA.
- Worked with PMs, Engineers, Sales, Marketing & Data to ship multi-platform features.
- Delivered high-quality designs for Candidate App, Employer Website, and Sales CRM.

Intern Product Designer - WorkIndia recruitment platform (Bengaluru, Jul 2024 - Dec 2024)

- Being one of the two design team members, I had to take full ownership of projects from week three and handled end-to-end workflow with minimal guidance. Practically doing full-time work with an intern title.

Freelance architect (Chennai, Jun 2023 - Nov 2023)

- Client requirement discussions, Site analysis, Budgeting, Creating residential layouts and Interior 3D visualization.

Junior architect - PSP Studio (Chennai, Mar 2022 - May 2023)

- Worked on a number of projects across typologies such as Hospitality, Residential, Commercial and Academic.
- Proposed innovative spatial concepts, garnering positive feedback from clients and Senior architects. Effectively communicated complex architectural ideas through compelling 3D visualisation, ensuring clear understanding.

Education

Bachelor of Architecture - Hindustan Institute of Technology & Science, Chennai. (2016 - 2021)

CGPA: 8.4

Awards

Architect Attorney - Defending the critiques of a flawed architectural design (NASA Convn.) (2019)

National level 1st

Interests

Design, Travelling, Photography, Architecture & Faith
